## ABOUT ME

Hi, I'm Thomas, I'm 20 years old, and I consider myself someone who competes with his skills every day. I constantly strive to improve, as my passion for design and web development drives me. If something doesn't go well for me, I won't stop until I make it work.

I really enjoy the front-end, but I'm also interested in back-end development. Besides, my skills allow me to handle both front-end and back-end work. I also enjoy developing the creative side of design.

Therefore, I consider myself versatile and capable of working and coordinating with a team, adapting to the situation of the group.
